One Block Challenge

You are going to choose to work with Harmony or Storyboard and create a spooky animation or storyboard as a late Halloween treat for Dr. Kirk to enjoy. I challenge you to scare me or at least use some impressive effects in a spooky design!

This is to be exported and turned in by the end of the period.

Here are some resources if you want to use pre-made templates/assets:

[Harmony Goo and Glow Effects](#)

[Harmony Pirate Ship](#)

[Pumpkin Storyboard Template](#)

You can also create your own if you prefer.
