

## **Exam Review**

### **Important Vocabulary:**

JavaScript (and know there are other languages such as C#, C++, etc.)

Problem Statement

Architecture

Gamification

Understand types of operators for JavaScript that we've used in Code Combat (+, -, =, ==, !, <, >, etc.)

### **Project:**

-Review basic Unity introductory tutorials if needed. Tutorial will be allowed tomorrow but may be beneficial to open and play around with today.

### **Code Combat:**

-You will be required to get through 5 (new) levels using Code Combat. Ensure you understand that you put code in below where they give you the yellow arrows, slow down and read their hints and information, use their comments (//) to understand what they are asking you to do.
