

Workshop Requirements

Time: Recommend about 15 minutes (can be longer)

- Presentation- PowerPoint or Prezi
 - What was your role?
 - Talk about that role- what were the requirements? Go into detail!
 - Talk about the process
 - How did you begin? Did you organize with lists, notes, etc.?
 - What did you do to proceed? Give details!
 - Did you work with anyone else or receive help?
 - What issues did you run into?
 - What was the final product?
 - What tutorial(s) did you use?
 - What did you learn?
 - Final Product
 - If you programmed: Include code with comments- discuss important methods/functions and variables you used. Screenshots of anything visual.
 - If you did a scene: Show screenshots of your scene- why did you design it the way you did?
 - Lessons learned – things you would do differently
 - Questions
- Activities (optional but recommended)
 - Kahoot
 - Follow-up questions you ask your peers
 - Quiz or questions for understanding
 - Ask peers to complete a piece of what you showed them- organized follow along activity
 - Circle asking for feedback
