

## **MTA Windows Operating Systems Study Guides & Notecards**

After completing all G-Metrix trainings & getting two 90% on two different tests run through all the below guides/quizzes. The more additional research you do the better off you will be. G-Metrix does NOT cover everything on the exam – additional studying is needed for this exam.

→ Once in the exam complete all questions you know FIRST, mark any you are unsure of for review. Once you do all questions you know well go back and review the flagged questions.
